

Download to Your Heart
earthangel181.com

Push the right buttons,
Make it happen –
Download a **cyber poem**,
Print it out -
Stick it on the side
Of your fridge,
A tiny piece of my heart...
From my **cyber home**...

Or *download*,
Send to a friend -
Someone special or **sweet**...
Tell them where
To find my house,
That *three lettered number*
Of '**my street**'!
Then compare *cyber notes* –
The very next time
You meet!

There are many ways
To carry a poem,
On your travelled road,
But before you press
Those *buttons*
To *download* -
To make a *cyber start*,

Remember,
The best place
To carry a **poem** -

Is safely buried,
Deep inside -
Your very own,
And precious heart!
